

HW04 FARM INTRODUCE DATA

Name: Almache Litardo Anderson Moises

The screenshot displays the Apache NetBeans IDE 12.5 interface. The main editor window shows the `Farm.java` file, which contains the following code:

```
8 import ec.edu.espe.farm.model.Egg;
9 import ec.edu.espe.farm.model.Poop;
10 import java.util.Scanner;
11
12 /**
13  *
14  * @author ASUS
15  */
16 public class Farm {
17     public static void main(String[] args) {
18         Egg egg = new Egg(1);
19         Poop poop = new Poop();
20         Chicken chicken = new Chicken();
21         int id;
22         String name;
23         String color;
24         int age;
25         boolean isMolting = true;
26
27         System.out.println("Chicken -->" + chicken);
```

The left sidebar shows the project structure, including the `Source Packages` and `Test Packages` for the `FarmSimulator` project. The `Output - Farm.java (run)` window at the bottom shows the execution results:

```
run:
Chicken -->Chicken(id=0, name=ch, color=white, age=0, isMolting=false)
Please enter Id of the Chicken
- id -->
10
Please enter the age of the Chicken
- age -->
3
Please enter the name of the Chicken
- name -->
Claudia
Please enter the color of the Chicken
- color -->
Black
chicken 10-->Chicken(id=10, name=Claudia, color=Black, age=3, isMolting=true)
BUILD SUCCESSFUL (total time: 33 seconds)
```

The Windows taskbar at the bottom shows the system clock as 17:32 on 29/11/2021, with a temperature of 14°C and various system icons.
