The screenshot shows the MongoDB Atlas web interface. The browser's address bar displays the URL: `https://cloud.mongodb.com/v2/61c32d6d54722979b4a2dc7e#metrics/replicaSet/61c331362850e3658d089595/explorer/HW12Mongo...`. The interface includes a top navigation bar with the user name "LEANDRO ALEXAN..." and a sidebar on the left with a menu containing "DEPLOYMENT", "Databases", "Data Lake", "DATA SERVICES", "Triggers", "Data API", "SECURITY", "Database Access", "Network Access", and "Advanced". The main content area is titled "HW12MongoDBShell" and shows a "friends" collection. A filter is applied: `{ field: 'value' }`. The query results show three documents:

```
{
  "_id": ObjectId("61ce18d01069b3577814fb22"),
  "name": "Juan",
  "Age": 22,
  "gender": "male"
}
```

```
{
  "_id": ObjectId("61ce19321069b3577814fb23"),
  "name": "Jhos",
  "Age": 20,
  "gender": "feminine"
}
```

```
{
  "_id": ObjectId("61ce19b01069b3577814fb24"),
  "name": "Alex",
  "Age": 19
}
```

The Windows taskbar at the bottom shows the date and time as 30/12/2021 15:49, and the weather as 22°C Lluvia ligera.
