Cristian Arroba
Melissa Gómez
José Guzmán

```java
public class Person {

    private String name;
    private String lastname;
    private String telephoneNumber;
    private String Email;
    private String ID;
```

-variables must be written with lowercase

```java
1    package ec.edu.espe.mechanic.model;
2
3    /**
4     *
5     * @author Sigma Programmers
6     */
7    public class Accesories extends Product {
8
9        public Accesories(String name, int quanty, int price) {
10           super(name, quanty, price);
11       }
12
13   }
```
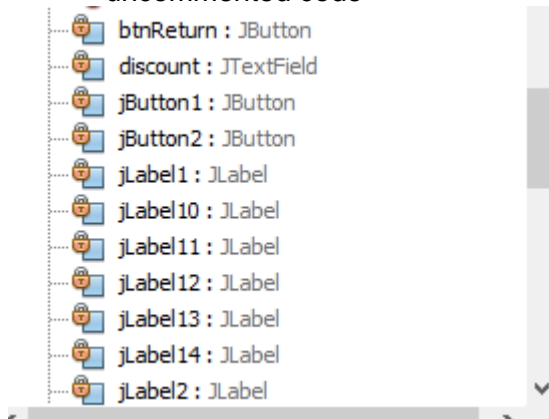

- Classes must be singular

```
55 └    */
56 ─    public void setPrice(int price) {
57         this.price = price;
58     }
59
60     /*=======
61     String name ;
62     int quanty;
63 >>>>>>> e4b3f82c2e54cd426697e6d1e44a137df95afedb
64     */
65 }
66
```
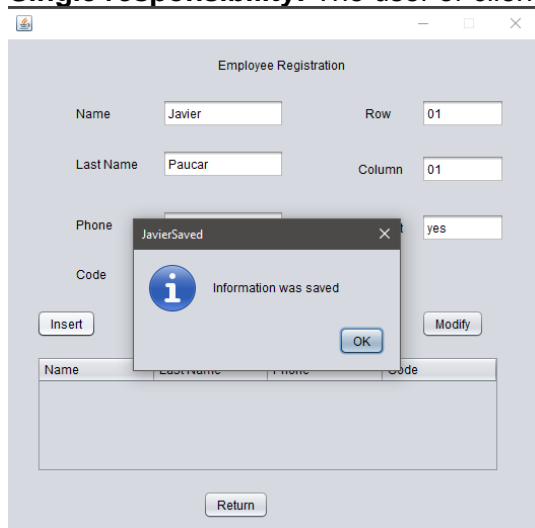

- uncommented code
